

## **ADDITIONAL MEASURES FOR COVID-19**

### GENERAL

While we are taking as many measures as logistically possible to reduce risks, we cannot guarantee your safety. If you are uncomfortable with the risks involved in an activity requiring close, physical contact you should not come skydiving. Please understand that by choosing to participate you are assuming responsibility for exposure and risk of contracting or spreading COVID-19.

Please respect the rights of our staff, instructors and other customers to their personal health and safety. As a private business we reserve the right to refuse service or admittance to those unwilling to participate in social distancing or other safety measures for the protection of our staff, instructors and other customers.

*The CDC is recommending masks still be worn in airports and onboard aircraft regardless of vaccinations.  
We will require masks when in our building or on our aircraft.*

**Thank you for your cooperation and understanding during these unprecedented times.**

### TANDEM SAFETY AND PROCEDURES RELATIVE TO COVID-19

You should assess your personal health prior to coming to our facility. If you would answer “Yes” to the below screening questions you should call to reschedule your appointment.

Guests or spectators are required to wear masks and follow social distancing measures. If the lobby becomes crowded, we ask that non-jumping guests wait outside.

We encourage all customers to prepay over the phone or online when possible and fill out all paperwork and waivers online to minimize contact risks with touch screens, touch pads and staff members.

Assess your health prior to arrival:

1. Do you have a fever?
2. Do you have a new cough?
3. Do you have shortness of breath?
4. Do you have a sore throat?
5. Do you have any other symptoms of Covid-19 or any flu-like symptoms?
6. Have you been in contact with anyone who is symptomatic or has tested positive for Covid-19 in the last 14 days?

If you answer “Yes” to any of the above, please call to reschedule your appointment.

We STRONGLY RECOMMEND that customers purchase their own, personal pair of goggles. If you do not wish to purchase a personal pair, we will loan you a pair which will be cleansed between uses.

You must bring or purchase your own, personal facial covering.

We will be requiring everyone to wear a facial covering when on board our aircraft & any time social distancing of 6 feet cannot be maintained while inside of our building.

We will no longer be allowing tandem customers to borrow jumpsuits. Please wear long pants that you don't mind getting dirty and dress warmly. The air temperature at altitude is 30 degrees cooler than on the ground.

We have marked out 6 feet of separation between customers in the check-in area.

We have installed a spit shield between guests and staff members in the check-in area.

We have marked out 6 feet of separation between ipads for waivers- although we request that you fill out your waiver online prior to arriving to minimize your contact risks with touch screens, touch pads and staff members.

We have marked out 6 feet of separation between chairs in our training classroom.

We will be cleaning all high-touch surfaces and the inside of our aircraft as often as possible.

We have supplied hand sanitizer in the building for ease of use, although soap and water for 20 seconds is **STRONGLY RECOMMENDED** over hand sanitizer.

We have installed an additional washing station in the lobby and in the "gear-up" area for ease of use by customers and instructors.

We will be asking students and instructors to wash their hands prior to beginning the gear-up process and as often as possible. Especially after touching eyes, nose, mouth or face, after sneezing, coughing or blowing nose.

Students and instructors must wear facial coverings any time proper social distancing cannot be achieved. Specifically, during the gear-up process, in the loading area and on board the aircraft.

Inclimate weather can cause potential delays in our operation. This could lead to larger numbers of customers congregating in the lobby. We highly recommend waiting in your vehicle or outside rather than in an enclosed space whenever possible.

#### INSTRUCTOR SAFETY AND PROCEDURES RELATIVE TO COVID-19

Instructors/staff should contact Travis Mickle or Rachel Rolfsmeier immediately if they are symptomatic and should not come to the facility. See "Employee Exposure Plan for Covid-19" document for more information.

You must have a facial covering to enter the building. If you do not have one you must purchase one from us. No rentals.

Please assess your personal health daily before coming to the drop zone:

1. Do you have a fever?
2. Do you have a new cough?
3. Do you have shortness of breath?
4. Do you have a sore throat?
5. Do you have any other symptoms of Covid-19 or any flu-like symptoms?

6. Have you been in contact with anyone who is symptomatic or has tested positive for Covid-19 in the last 14 days?

If you answer "Yes" to any of the above please contact Travis and do not come to the drop zone.

Instructors should avoid entering the office/lobby/manifest unless absolutely necessary once checked in. We need to limit the number of people in enclosed spaces as much as possible.

Instructors should fill out all paperwork and waivers at home and email images of all needed documents for work to reduce in-person contact with office staff.

Instructors must wear a facial covering when in contact with tandem customers and any time social distancing of 6 feet cannot be maintained. When gearing up, in the loading area, on-board the aircraft.

Instructors must wash hands frequently. Especially prior to entering the building, prior to gearing up students and in between working with each new student, after touching eyes, nose, mouth or face or after sneezing, coughing or blowing nose.

Instructors and students should wash their hands prior to beginning the gear-up process.

Instructors must have a least 2 pairs of student goggles so that one pair may be cleaned and dried between students.

AFF Instructors & Coaches should ensure only one student is using a particular jumpsuit/altimeter/goggles/helmet/radio each day or until each item can be properly cleaned.

If a staff member tests positive for COVID-19, non-vaccinated instructors will need to be tested prior to returning to work. Proper disinfection procedures will be executed to allow virus to die on any contaminated surfaces. Help us stay open by taking these measures seriously!

If you become infected, you must report to [Travis@skydivemidwest.com](mailto:Travis@skydivemidwest.com) immediately.

LICENSED JUMPER SAFETY AND PROCEDURES RELATIVE TO COVID-19

You should assess your personal health prior to coming to our facility. If you would answer "Yes" to the below screening questions you should not come to the DZ.

If you bring non-jumping guests with you, please make sure they sign a waiver, bring a face mask and maintain social distancing standards.

Please waiver online prior to coming out to jump.

Please put money on your burble account over the phone, prior to coming out to jump. We need you to limit your time in the lobby and contact with office staff as much as possible. They are in close contact with all tandem students, this is for your safety.

Please bring hand sanitizer and/or wash your hands frequently. Especially after touching eyes, nose, mouth or face or after sneezing, coughing or blowing nose.

You must have a facial covering to enter the building. If you do not have one, you must purchase one from us.

Assess your personal health before coming to the drop zone.

1. Do you have a fever?
2. Do you have a new cough?
3. Do you have shortness of breath?
4. Do you have a sore throat?
5. Do you have any other symptoms of Covid-19 or any flu-like symptoms?
6. Have you been in contact with anyone who is symptomatic or has tested positive for Covid-19 in the last 14 days?

If you answer "Yes" to any of the above please do not come to the drop zone.

We have installed spit shields at the check-in counter.

We have installed floor markings on the floor in the lobby/check-in area to delineate 6ft of separation. Please use them.

2 of the waiver ipads have been removed to allow more separation. PLEASE waiver before you come to the DZ so you don't have to use them at all.

You must wear a facial covering if 6ft of separation cannot be maintained. Specifically, in areas where tandem customers are present (in the lobby, bathroom, gear-up area, loading area, onboard the aircraft).

Please do not congregate in areas where tandem students are present. Avoid the lobby and tandem gear-up area as much as possible. You MUST wear a facemask if you are in these areas.

Please use the burble app to manifest whenever possible.

ALL jumpers on board our aircraft MUST wear a face covering. Even if you have been vaccinated. You will not be able to maintain social distancing on board the aircraft and therefore a face covering is required. We must prioritize the health of our staff members and pilot in order to continue doing business.

You will not be permitted to borrow a jumpsuit. Jumpsuits are for AFF students or VERY recently licensed jumpers only.

Please do NOT make physical contact with staff members or other fun jumpers without getting their sincere, verbal permission or expressed comfort level first. Please be respectful and cautious not to over-step someone's personal boundaries. If complaints are made against you, you may be asked not to return to the DZ until social distancing measures have been lifted.

Please avoid making contact with one another in the tandem customer areas- lobby, bathroom, gear-up area, loading area. Set a good example in common areas.

Please try to avoid physical contact with tandem instructors as much as possible. They are directly exposed to tandem students. This is for your protection.
